

DEBOER FAMILY EYECARE

Our Office uses the highest quality of lens materials to insure visual clarity. We assure 100% the quality of our workmanship and the clarity of your vision. A necessary remake would be covered under our free warranty* policy at no additional charge.

Should you choose to take your prescription elsewhere, please know that the quality of lenses may be inferior and lens curvature may be different than your current eyewear. Either of these issues may cause problems with your vision even though the Rx is correct.

Also, please make yourself aware of the cost of warranty and the remake policy prior to purchase from another office. We will not be held responsible for the remake charges of eyewear purchased at other locations.

I understand the prescription release policy:
